There is a full service tack shop, shower and bathroom house, screened in dining area, dump station, and miles of trail connecting to the Hoosier National Forest. An additional nominal bridle tag fee will be charged if you care to ride out and onto the Forestry Trails. We'll also plan some fun things to do on Saturday evening for those interested!

Arrival is planned for Friday any time after noon. Camping locations will be assigned as you register for the event. If you would like to camp next to someone just let me know when registering. Those registering by June 1, 2008 will receive a free AHA recreational riding T-Shirt so sign up early! Please sign up early...we have reserved a series of connecting campsites so we can all be near each other and we need to know how many to plan for.
